

Yann Pequignot

Education

- Jul. 2015 **PhD in Mathematics.**
Université de Lausanne, Switzerland & Université Paris Diderot, France (joint program)
- 2005–2010 **BSc & MSc in Mathematics.**
École Polytechnique Fédérale de Lausanne (EPFL), Lausanne, Switzerland
- Jul. 2005 **Maturité fédérale.**
Lycée Blaise Cendrars, La Chaux-de-Fonds, Switzerland

Research interests

Descriptive set theory, Infinite games with perfect information
Combinatorics, Well-quasi-order and better-quasi-order
Stone duality, Profinite topologies, Computable analysis

Publications

- Jul. 2015 **Better-quasi-order: ideals and spaces**, PhD thesis, Université de Lausanne and Université Paris Diderot – Paris 7.
- 2015 **A Wadge hierarchy for second countable spaces**, In: Archive for Mathematical Logic 54.5-6, pp. 659–683.
- 2014 **From well to better, the space of ideals**, with Raphaël Carroy, In: Fundamenta Mathematicae 227.3, pp. 247–270.
- 2011 **Duality and the equational theory of regular languages**, In: PhDs in Logic III, IfColog Proceedings. Vol. 2. Future Directions for Logic.
- 2010 **Détermination projective**, Master thesis, EPFL.

Talks

Seminar talks

- Apr. 2015 **Seminar of logic and set theory**, University of Turin, Italy.
A Wadge Hierarchy for second countable spaces
- Apr. 2014 **Séminaire général de logique**, University Paris Diderot – Paris 7.
A Wadge Hierarchy for second countable spaces
- Nov. 2013 **Groupe de travail en Théorie descriptive des ensembles**, Université Paris 6.
A notion of reduction via admissible representations
- Sep. 2013 **Séminaire de Logique Mathématique**, Institut Camille Jordan, Lyon.
From well to better, the space of ideals

Nov.–Dec. 2012 **Groupe de travail en Théorie descriptive des ensembles**, Université Paris 6.
Between wqo and bqo, the space of ideals of a quasi-order

Contributed talks

May 2014 **Ramsey Theory Conference**, University of Denver, Colorado, USA.
From Well to Better, the Space of Ideals

Feb. 2014 **Winter School in Set Theory and Topology**, Hejnice, Czech Republic.
Wadge hierarchy on second countable spaces

Sep. 2013 **Highlights of Logic, Games and Automata**, Paris, France.
Reduction via representation

Feb. 2013 **Winter School in Set Theory and Topology**, Hejnice, Czech Republic.
Between Wqo and Bqo, the Space of Ideals of a Wqo

Jun. 2012 **ANR FREC meeting**, Bordeaux, France.
Pervin uniformities on well-quasi-orders

May 2012 **ANR FREC meeting**, Île de Ré, France.
Duality and Equational theory of regular languages

Feb. 2011 **PhDs in Logic III**, Bruxelles, Belgium.
Duality and Equational theory of regular languages

Extracurricular activity

2012–2014 **Swiss Graduate Society for Logic and Philosophy of Science**, Board member.
Participation in organising six workshops around Logic

Teaching

2011–2014 **Mathematical Logic**, Bachelor 3rd year, head assistant.
EPFL, Lausanne, lecturer: Jacques Duparc.

2011–2014 **Gödel and Recursivity**, Master, head assistant.
EPFL, Lausanne, lecturer: Jacques Duparc.

2013 **Set Theory**, Master, head assistant.
EPFL, Lausanne, lecturer: Jacques Duparc.

2013 **Michelle Stella**, *Espaces quasi-Polonais*, Master thesis, EPFL.
Supervision of a Master thesis

2010–2015 **Supervision of students projects**, *Mathematics*, EPFL.
Supervising several students on mathematical writing about various topics.

2007–2010 **Student assistant**, EPFL, Lausanne.
Analysis for Prof. Joachim Stubbe, Linear algebra for Prof. Kathryn Hess Bellwald

Oct. 2008 **Teacher substitute**, Lycée Blaise-Cendrars, La Chaux-de-Fonds.
One month teaching as a full substitute in high school.
